## DAY AND TIME SETTING

### ● CAL. 6G34

#### CROWN

Pull out to second click when Small second hand is at the 12 o'clock position.

Turn clockwise to advance Hour and Minute hands until Day hand is set to the desired day of the week.

Turn to set the time.

Push back completely in accordance with a time signal.

- To advance the day hand quickly, turn back the hour and minute hands 4 to 5 hours beyond the point the day changes (between 11:00 p.m. and 4:00 a.m.), and then advance them again until the day hand is set to the next.

*\*The day hand will not move back by turning the crown counterclockwise.*

- After the day hand reaches the last day of the week, turn the crown clockwise and the hand will return to the first day of the week (retrograde day indicator).
- When adjusting the day hand, turn the crown slowly.
- The 24-hour hand moves correspondingly with the hour hand.
- When setting the hour hand, check that the 24-hour hand is correctly set.
- When setting the minute hand, advance it 4 to 5 minutes ahead of the desired time and then turn it back to the exact time.

### ● CAL. 6G27

#### CROWN

Pull out to first click when Small second hand is at the 12 o'clock position.

Turn to set the time.

Push back completely in accordance with a time signal.

- The 24-hour hand moves correspondingly with the hour hand.
- When setting the hour hand, check that the 24-hour hand is correctly set.
- When setting the minute hand, advance it 4 to 5 minutes ahead of the desired time and then turn it back to the exact time.

## DATE SETTING (for Cal.6G34)

### CROWN

Pull out to first click.

Turn counterclockwise to set Date hand to the desired date.

Push in.

1. Do not set the date hand between 9:00 p.m. and 2:00 a.m. Otherwise, it may not turn properly.
2. While setting the date hand, check that it moves properly in one-day increments.
3. It is necessary to adjust the date on the first day after a 30-day month and February.

## BATTERY CHANGE

**3**  
**Years**

The miniature battery which powers your watch should last approximately **3 years**. However, because the battery is inserted at the factory to check the function and performance of the watch, its actual life once in your possession may be less than the specified period. When the battery expires, be sure to replace it as soon as possible to prevent any malfunction. For battery replacement, we recommend that you contact an AUTHORIZED SEIKO DEALER and request **SEIKO SR626SW** battery.

### ⚠ WARNING

- Do not remove the battery from the watch.
- If it is necessary to take out the battery, keep it out of the reach of children. If a child swallows it, consult a doctor immediately.

### ⚠ CAUTION

- Never short-circuit, heat or otherwise tamper with the battery, and never expose it to fire. The battery may burst, become very hot or catch fire.
- The battery is not rechargeable. Never attempt to recharge it, as this may cause battery leakage or damage to the battery.

## SPECIFICATIONS

- |   |                                       |  |
